THSR Clicker K222

**Homozygous Black
Homozygous Polled**

SimAngus™

Clicker is a true calving ease bull that is proving to be a top-notch heifer bull. His calves come easy and all have that dark, shiny, jet black coat color. Clicker offers a new twist to most of the high \$API, \$TI bulls. He is an outcross to the Essentials, Beacons, Boulders, Big Timbers, Eagles, and Lucky Crosses, and many more highly promoted calving ease options. Sired by Epic and a very well-put-together Angus cow out of the Topp Angus Program. Clicker offers 11 traits in the top 25% of the breed, his \$API, \$TI, calving ease and growth traits are top 15% or better, it appears that his calves will have top performance once they hit the ground. Clicker is a strong-made bull that has a very proud, up-headed phenotype that catches your eye. There is power in his blood, commercial cowmen will love his kind. Clicker offers a fancy, eye-appealing breeding option that offers a perfect foot and leg structure. He is very fluid in his movement. He is deep-sided with a well-sprung rib shape, and a long, strong, wide topline. His disposition is very good; commercial cowmen will love his kind.

SimAngus™

Overhaul is a true outcross to most high SimAngus pedigrees sired by the \$900,000 Poss Deadwood. Overhaul was a sale highlight at the Drake production sale, where he commanded a sale-topping price and a lot of attention from top cattlemen across the U.S. Overhaul is a clean-made, thick, deep-sided, wide-bodied bull with excellent fleshing ability. He should sire cattle with an outstanding, easy-keeping body type. Overhaul posts 13 EPD in the top 25%, and 16 in the top 35 percent of the ASA database. Overhaul's \$API, \$TI, marbling, and carcass wts are in the elite top 1% of the breed, and he posts an impressive top 5% ribeye EPD. Overhaul's own performance solidifies his EPD profile with a light 78-lb. bw, a big 782-lb. 205 wt, and a powerful 1,635-lb. 365 wt. Overhaul earned a G+ & ATM rating on the Right Choice Evaluation. With Overhaul's pedigree, personal performance, genomic results, and Right Choice conformation, his genetic potential is limitless. Overhaul is the outcross Simmental and SimAngus breeders are searching for. Overhaul will sire calving ease, growth, power, maternal excellence, and carcass values rarely found in any breed.

Drake Power Cat J76L

Homozygous Black
Homozygous Polled

SimAngus™

Power Cat will get your blood pumping. He is very eye-catching and clean in his design. Power Cat scored a G+ & ATM rating on the Right Choice Genetic evaluation. No matter how you analyze this bull, he is superior physically and genomically, he passed the test. Power Cat is the outcross baldy bull the Simmental breed has been looking for. Power Cat just puts it all together: a powerful, clean-made herd bull look with outstanding personal performance. His \$900,000 sire Poss Deadwood absolutely dominates the ASA EPD charts with WW, YW, ADG, CW, Marble, \$API & \$TI, all in the top 1% of the breed along with top 3% MWW and excellent CE, MCE, Milk, and Docility. Power Cat's own performance is very impressive with a 79-lb. bwt, 761-lb. WW, and 1,614-lb. YW. His docility score of top 4%, along with excellent WW, YW, ADG, Milk, MWW, CW, Marb, REA, \$API, and \$TI, all ranking very high. Power Cat dominates both actual performance and genomic predictions, he has passed every test with ease, you can be confident he will DELIVER. If you are looking for a new genetic line that offers top performance, excellent EPD, suburb docility, and a phenotype that will stop you in your tracks, Power Cat is a bull you will want to use.

Simmental

Value, his name says it all. Value is a true performance bull that offers elite value both physically and on paper. Value is siring calves that are delivering very good performance and fleshing ability. If you need more volume, body depth, and body width, the Value calves deliver. They possess a wide, deep rear quarter, and an easy-keeping body type, the cow/calf men will love them. Value and his calves are very easygoing and have a perfect disposition. Value's own performance stats are top-notch with a 205 wt of 987 to index 108. Again ratioing 108 at yearling weigh-in, his IMF scan is one of a kind with a 191 ratio and a very nice 14.43 REA, which is about perfect. His Shear Force EPD predicts a tender eating experience. Value's cow family is outstanding, his dam and granddam are a sight to behold, both are stout, deep-volumed cows with perfect body type and structure, they have immaculate udders and perfect dispositions. Value is a neat, clean-fronted purebred bull with tremendous body depth and spring of rib. If you are looking for that bull that offers top genetics on paper and in person you will want to add Value to your AI program. He will sire excellent performance, eye appeal, and genetic merit. His replacement daughters will be powerful, 6-frame mother cows that will have the ability to stay in shape even when the environment throws tough conditions their way. Value is unique, he offers top performance with outstanding maternal traits, exceptional docility with very acceptable carcass merit, a feat very few cattle can match.

Simmental

- A bull that can put some power and growth back into the shorter frame cattle.
- Out of a first calf heifer, he boasted a 901-lb. 205-day weight and a 1,444 lb. yearling.
- The power of his dam, Art Miss E720, has created a strong interest in the purebred circle.
- The daughters in production have excellent udders and a feminine stature.
- Outcross pedigree that will complement most of the bulls in today's sire catalogs.
- One of the few true power bulls out there.

Simmental

- Emblem was the high-selling bull from the 2022 R.A. Brown sale. He offers extra muscle shape and dimension for a calving ease sire, yet is still sound, good-footed and flexible.
- He is as complete of a sire as you will find. Emblem offers the perfect blend of phenotype, genotype and ratios. His ratios are as follows: BW@96, WW@105, YW@104 and IMF@122.
- Emblem is both a G+ and ACE sire on the Right Mate system, offering added confidence for use on heifers.
- A late Eagle son from a proven Top Grade dam, Emblem has proven genetics stacked in his pedigree for added predictability. His Dam offers impressive ratios, BW 8@95, WW 8@104, YW 4@102, IMF 3@117, and REA 3@101.

Bridle Bit Miss B452 – Dam of Colorado

- Colorado has proven himself with seedstock and commercial cattle producers alike as a go-to bull for first calf heifers!
- Calves have tremendous vigor at birth!
- Daughters have beautiful udders!
- He produces sons that are eye appealing and sought after!
- The dam to the \$100,000 Bridle Bit Recharge bull was a Colorado daughter.
- In February 2024, a Colorado daughter produced the \$87500 son (Trax's Klondike L28) selling to Kunkel Simmental.
- Chad Cook: "We have used Colorado every year since he was sold to the Traxingers. His progeny have impressed us each year. We now have several daughters in production and are beginning to see the true benefits of the bull. The daughters have beautiful udders, feet, and an overall maternal look. We are also happy with their quiet disposition and mothering ability."

THE NEXT STEP

The next step in the relentless effort to advance beef genetics is to combine genomic excellence with phenotypic excellence, and Five Star Jackson represents that progress. And he does so as an outcross to many of today's popular pedigrees, sired by Hook's Full Figures and out of KBHR F316. Jackson's genomically enhanced EPD are as follows:

- Top 1% Calving ease, and maternal calving ease
- Top 2% \$API (180.7)
- Top 3% \$TI (101.7) and marbling
- Top 10% Birthweight, milk, and stayability
- Top 15% Maternal weaning weight
- Top 25% Weaning weight, yearling weight, ADG, and carcass weight

- A stout, attractive, genetically advanced bull that will improve looks and a broad base of numbers — an Elite Balance Bull.
- Jackson was the \$65,000 showstopper at the recent Oak Meadow and Five Star sale.
- Over 30 calves at Drake's and all born unassisted. Calves are vigorous and showing fantastic look and depth.
- Jackson calves at the top of many sales around the country.
- In early 2024 his calves are showing broad appeal.

- His first calf crop is proving him as a 'truly great' breeding bull! Calves are blessed with very consistent calving ease, excellent quality, eye appeal, structure, and exceptional, early performance.
- He is the 'true standout' Galileo son in terms of phenotype, balance, and his impressive genomic data!
- Great dispositioned, excellent feet and legs, deep-ribbed and powered up with impressive natural thickness.
- Breed him to an entire heifer crop, flush your best donors and breed a bunch of cows knowing that he will add value, quality, and market returns to every calf he sires.
- Use the Planned Mating calculator to see the kind of EPD and Indexes projected utilizing him this year! The resulting data will be impacting, ahead of most any purebred sire in the breed.
- For correct-structured, great-footed, docile calves that have that extra volume, fleshing ability and eye appeal, make sure you order plenty of his semen.

Simmental

- Heifer safe, ACE qualified
Hook's Eagle 6E son out of one of the most genetically potent donors in the breed.
- His first calves confirm his value as a Purebred heifer bull. Calves have tremendous vigor at birth.
- Deep-sided, thick, clean, and attractive on the profile, Boomer is a prototypical Simmental sire for all segments of the beef business.
- His dam is nearly ideal, with a tremendous udder for suspension and teat size, and a stunning genetic evaluation.

Dam - KBHR IR/JLN Astoria G119

Simmental

- The breed's premier High Road son that offers extra body mass, depth, natural thickness, and overall power in a more moderate frame size than his sire.
- Daughters are amazingly good, being perfect-uddered, dense in their deep, voluminous body, and superb dispositioned.
- With extraordinary consistency, his impressive offspring are born easily and exploding with impressive volume and thickness as they mature. Used on over 200 yearling heifers, proving him as a "no worries" type calving ease sire.
- His excellent EPD profile is one of multi-trait strength, and phenotypically he is a most admired individual as a mature, super-sound sire.
- Few bulls combine his calving ease, performance, maternal, and carcass traits at such an elite, balanced level. His structural integrity could not be better, excellent feet, joints, and legs!

- Anthem was not only one of the most exciting bulls to surface in the 2023 sale run, but also one of the heaviest used for that respective breeding season! He impresses everyone who gets to evaluate him in the flesh – from his thick extra frame (6.5) to all the body, thickness, and muscle he possesses. He is the total package.
- His impressive number profile coupled with his powerful phenotype and presence puts him in a league all his own. His potent dam needs no introduction and contributes heavily to his impressive EPD set, yet he gets to the top 1% of the indexes without being sired by the commonly used bulls to typically get those number profiles.
- First calving reports have all been positive – calves easy with explosive early performance and style! If you haven't already used him, you may want to put him on the short list for 2024!

LRS Dutton 611K

**Homozygous Black
Homozygous Polled**

Simmental

Dam – LRS Ms Eagle 983G

- The power bull with extra genetic merit breeders have been begging for!
- Dutton is exceptional for foot shape and heel depth as is his impressive young dam, 983G. She is a rising star in the breed and has already produced several AI-worthy sons.
- Balance is key, and Dutton offers nine EPD in the top 10% or higher.
- Dutton offers extra muscle and power, yet maintains structural integrity on the move.

QB K32

HRS K485

- He is in the top 5% of the breed in eight traits.
- 42-cm testicles. ■ Frame score 6.3.
- Falcon continues to impress us with his low birth weight and growth to yearling. Falcon can be used on virgin heifers and he is working well with many positive reports. We are calving our first daughters and they are amazing cows with picture-perfect udders.
- Falcon is a structurally sound, long-bodied bull with the added performance we were looking for in our bull pen.
- Falcon carries an ideal foot structure with a large hoof and ideal toe shape.

Simmental

- Here is your opportunity to get in on a son of Mr SR Mic Drop G1534, that is virtually a carbon copy of his sire right down to his facial markings.
- Mic Check was only 72# at birth with incredible growth and a flawless EPD profile making him an exciting new spread bull to the industry.
- Tremendous foot and hoof quality, extra-bold rib cage, deep-flanked, yet very clean and refined through his front third.
- His dam is an outstanding upcoming female in the Flittie herd and is sired by a flush mate to the dam of TJ GOLD.

- STCC Mantachie 105L is a son of the record-selling \$620,000 half-interest, STCC Tecumseh 058J whose first calf crop has taken the breed by storm, with multiple high-selling progeny!
- Being offered on the open market is your opportunity to secure the hottest genetic lines the industry has to offer.
- Mantachie combines the best of two proven cow lines, HF Serena and Angel 1B, with superior individual phenotype. He is blaze-faced, ultra-cool-looking, and moves with extra athleticism.
- HF Serena, Mantachie's paternal granddam, has grossed over \$3 million in progeny sales, is the mother of countless champions and high-sellers, and is currently listed as No. 3 on the most prolific dam list for the American Simmental Association.
- His dam is a beautiful Profit daughter from the now-deceased Angel 1B donor and a full sister to Bloomberg and Dameron's famous Triple Crown winner, "Mari," as well as Colby Sinclair's \$110,000 and Eagle Crest's \$70,000 sale features at Hartman Cattle Company. Not to mention, a pair of maternal sisters by Tecumseh averaged \$36,000 this fall.
- One of the premier Tecumseh sons to be offered on the market, Mantachie's pedigree and type are sure to create the next generation of show-winning progeny.

Simmental

- A legendary sire that is represented in top sellers in sale after sale. The common denominator is that they are either out of his daughters, or his prepotent, popular sons, Bold Ruler, Global or Genesis!
- Proclamation (now deceased) took the Simmental world by storm by consistently siring impressive performance, extra volume, good feet, and structure with the added value he has brought to the marketplace with his good-natured progeny.
- Acclaimed as Sugar's "Greatest and Most Proven" Son! Proclamation daughters are on her same path of maternal greatness!
- His sons have topped numerous auctions and are featured sire groups in sale after sale.
- His highly maternal daughters are beautiful uddered, broody, gentle, easy fleshing, fertile and extra valuable in building better cow herds.
- For better dispositions, extra body mass, super sound structure, great feet and program-impacting multi-trait EPDs with added performance, he is the sire of choice!
- High Quality Semen, Excellent Conception Rates!

Semen: \$50/unit

Available through Allied Genetic Resources, Cattle Visions, Bovine Elite, LLC, and APEX Cattle.

SimAngus™

■ Jet Black's first calves are on the ground, and we are really excited about them! They are exceeding our already high expectations for attractiveness, structural integrity, and added frame.

■ Jet Black is extremely attractive in his head and neck, ties in well to his shoulder, and is smooth through his center rib and hip.

■ Whether you're looking to make elite females or powerful, big ribeye bulls, Jet Black fits the bill.

■ He has the potential to take purebred Simmentals to a new level of eye appeal without sacrificing genotype.

■ Dam is a beautiful and feminine female with a high-milking yet sound udder, and impeccable hoof quality.

- Sons and Daughters of Galileo have topped sales across the country and have become leading herd sires, donors and productive cows.
- Son of the matriarch, Hook's Evita 18E, who has become a top Simmental cow in the breed for producing high-value progeny for both seedstock and commercial producers alike.
- High-accuracy EPDs support actual calf performance of a true spread bull offering a high degree of calving ease without sacrificing on growth.
- A top proven sire for improving marbling and adding docility that can be used to produce both purebred and percentage cattle.
- Daughters have been highly productive with strong maternal instincts, good teat size, and tight udder suspension.

Schooley Knight 739K

Homozygous Black
Homozygous Polled

SimAngus™

- Schooley Knight was a sale highlight from Schooley 2023 sale selling to Larsen Land and Cattle.
- Knight combines CE, WW, YW, Marb, REA, \$API, and \$TI as good as any sire in the database!
- A young sire we are excited to use on heifers and mature cows to add excellent hoof-shape, softness, length, and 6 frame. His phenotype might actually be his best attribute.
- Calves have the look to be contenders in 2025!

SimAngus™

- Schooley Krown 28K top-selling bull in Schooley Cattle sale for \$65,000 to English Oaks Ranch, AL.
- Recognized by many as the very best Revolution to surface from the highly anticipated KBHR Revolution H071.
- Stemming from the infamous Schooley Miss 823F donor who is creating her own story.
- Krown should sire scale-pounding progeny with added capacity, structural integrity, and unmatched phenotype.
- Excellent choice for adding WW, YW, IMF, \$API, and \$TI while maintaining feet, legs, and joints.
- Froze semen first jump at 12 months.
- Schooley Krown calves have a very modern and moderate bw with a very soft, practical look. He will be the go-to sire in 2025.

Sire — KBHR Revolution H071

SimAngus™

Springcreek Mistress 17B

■ Tesla 6E is a perfect fit for most breeders. His mating to many popular bloodlines is an absolute dream. His combination of muscle shape, rib, length, and generations of maternal excellence make him an extremely rare individual. Take into account the fact that he is Homo Black, and he truly sets himself apart! He is the real deal performance bull that is built to work on all modern Simmental and Angus genetics.

■ He is backed by a dam with excellent structure, foot quality, and udder quality. We have calved over 50 Tesla daughters in 2023/2024. They have perfect udder structure, with the right amount of milk. Type and kind is excellent with proper length, depth, and femininity. Tesla females are the kind that you could build a herd around!

■ Birth weights average mid 80s on his calves. They wean off at the top of the contemporary groups. He combines thickness, length, and eye appeal all into a very acceptable birth weight. Calf consistency is very impressive. Tesla stamps them alike from a very young age. Yearling sons are being marketed by many top breeders; buyers are quick to find them in groups.

SimAngus™

- One of the breed's most exciting new sires for the 2024 breeding season and considered by many as the finest Galileo son! Eight elite top 1-4% EPDs and \$Indexes!
- Few bulls can match his valuable combination of top percentile data, let alone possess his kind of flawless phenotype. Appreciate his overall physique, eye appeal, natural muscle, large scrotal size, and great feet.
- Use the ASA Breed Plan Mating with your females, and see how his elite CE, BW, MCE, MILK, STAY and MARB EPDs plus \$API and \$TI projections can move your female's production to a new, higher level.
- He stems from a beautiful, broody dam that is perfect uddered. The maternal value he offers will translate into a valuable set of daughters with total assurance.
- He is destined to be one the most-used sires in 2024, order his semen early. Breed him to heifers with assurance of his predicable calving ease. His impactful data set and individuality will add valuable economic and genetic value.

SimAngus™

Granddam of Nationwide

- Nationwide was the lead-off bull of the highly popular CCR Pounder sons in the 2023 Cow Camp sale.
- He has a quiet demeanor with impeccable foot and leg structure. Extremely sound and athletic on the move with a big-footed base.
- Nationwide's dam is an easy-fleshing cow with exceptional udder quality that is backed by generations of strong-uddered cows. She traces back to one of Cow Camp's top cow families that is loaded with maternal and carcass quality.
- He is well-balanced throughout his EPD with 11 different traits ranking in the top 20% of the breed.

Simmental

Rockin H Ms Carolina - dam

■ The buzz surrounding Rockin H Captivate J75 is still creating interest among Simmental enthusiasts! Captivate is the kind of bull you just have to love. He has a puppy dog demeanor, a simply captivating phenotype and is the red outcross option we all need.

■ One of the longest and most massive red bulls you'll find, he has impressed everyone who has seen him as he has matured. We are pleased with his structure that includes ideal angles at his joints and his large foot with the shape and angle that is becoming increasingly important.

■ His first calf crop has proven to be very impressive – he not only can be used on heifers, his progeny still have excellent growth traits. He sired multiple high sellers, and will continue to be a popular sire within the red gene pool.

Simmental

■ The next generation of the Genesis progeny with better hair and maternal traits. A genomic super star, top 1% for eight different traits, and loaded with maternal excellence with three of the most famous cows in the breed in his pedigree.

■ A bull that could be the next Cowboy Cut with a different pedigree and sire calves that perform at the top of the crop. He will leave you daughters that will put your program in the right direction.

■ Breed-leading data. 6 framed bull with a right choice score of G+ and ATM. Born at 81 lbs. of BW, weaned at 768 lbs. and yearling weight of 1,244 lbs. in the heart of the south and developed on fescue. His dam has quickly moved herself into the donor pen and will be a go-to donor for Gibbs Farms for many years to come.
